Customers in Germany must add 19% VAT (MwSt.). Customers from other European Union countries must provide their VAT registration number (No.TVA, BTW-Nr, DDS, SE-Nr, USt-IdNr, KMKR-number, ALV-NRO, VAT No, P.IVA, PVN, PVM, OB-Nummer, UID-Nr, NIP, NIPC, TVA, MomsNr, DPH, DDV, N.IVA, DIC):

Updates

See next page for details on update and upgrade conditions.
☐ This is an update of TET 2 to TET 3

Previous license key (required for updates):

PDFlib TET: Text Extraction Toolkit 3.0

Please enter desired quantities below. Prices are for a single computer regardless of CPU count. US-$ prices are for customers in the Americas, Australia, and Japan; Euro prices for all other regions. Volume discounts are available for 5 or more licenses (see next page).

Windows/Mac/Linux	*TET 3.0* US-$ 995 / Euro 795
Windows Server 2000/2003/2008	
Apple Mac OS X Server PPC/Intel	
Linux x86/x86_64/EM64T	

Sun/IBM/HP	*TET 3.0* US-$ 1.995 / Euro 1.595
Sun Solaris on x86/sparc	
IBM AIX 5	
HP-UX 11 on PA-RISC	

Desktop systems	*TET 3.0* US-$ 199 / Euro 159
Windows 2000/XP/Vista	
Apple Mac OS X PPC/Intel	

Support

☐ Technical support plus all minor and major updates within one year: add 18% of the license fee (see next page for details)

☐ (Only if the box above is checked) Automatically renew the support every year unless it is explicitly terminated by customer.

Credit Card Information

☐ EuroCard/MasterCard   ☐ Visa   ☐ American Express

TET Features

The PDFlib Text Extraction Toolkit (TET) is a developer product for reliably extracting text and raster images from PDF documents. TET makes available the text contents of a PDF as Unicode strings, plus detailed glyph and font information as well as the position on the page. Images are extracted in common raster formats. TET optionally converts PDF documents to an XML-based format called TETML which contains text, image, and metadata as well as resource information. TET contains advanced content analysis algorithms for determining word boundaries, grouping text into columns and removing redundant text. Using the integrated pCOS interface you can retrieve arbitrary objects from the PDF, such as metadata, interactive elements, etc.

With PDFlib TET you can:
- Implement the PDF indexer for a search engine
- Repurpose the text and images in PDFs
- Convert the contents of PDFs to other formats
- Process PDFs based on their contents, e.g. splitting based on headings (requires PDFlib+PDI in addition to TET)

TET is suitable for server use (thread-safe and robust, no memory leaks, clean exception handling). A detailed description of TET features can be found in the documentation.

Support

We offer optional support contracts in combination with a new product license, or to renew an existing support contract. Customers with an active support contract will benefit from the following advantages:
- technical support with short response times
- all minor (maintenance) and major (functional) updates included
- early availability of bug fixes
- maintenance releases and technical support available until the end of a product's lifetime

For a detailed description of support benefits please refer to our Terms and Conditions which are available on our Web site. The support fee is 18% of the license fee per year.

Support contracts can optionally be renewed automatically every 12 months until the support is explicitly terminated by the customer. In order to terminate a support agreement with automatic renewal please inform us one month before the support expires.

Scope of a License

One license covers a single computer running under the selected operating system (platform), regardless of the number of CPUs. Development licenses for machines which are not used for production purposes and run under the same operating system are free with each purchase. Redundant (backup) machines do not require a separate license, provided they are never used concurrently with the actual production machines. Groups of load-balancing servers require a license for every server in the group.

Operating System Platform

Supplying the name of the target operating system platform is a strict requirement since the license is bound to a specific platform. The license is valid for all supported language bindings (programming languages) on the selected platform.

A separate price list is available for IBM eServer iSeries and zSeries.

Volume Discounts

Volume discounts are available for multiple licenses of the same product, provided all licenses are ordered with a single combined order:
- If 5 or more licenses are ordered, 10% discount off the list price is granted for all licenses.
- If 10 or more licenses are ordered, 15% discount off the list price is granted for all licenses.

Please contact us for discounts on higher numbers of licenses.

Updates of older Versions

An update changes an existing license to a license for a functionally enhanced version of the same product on the same platform. An update invalidates the old license. A valid license key must be supplied with an update order. The following table indicates the fees for updates as a percentage of the target product's list price:

To	Update from TET 2
TET 3	60% of the target product's list price

Premium Licenses

In addition to machine-based licenses PDFlib GmbH offers Premium licenses with extended rights, such as site licenses, integration licenses, and source code licenses.

Premium licenses do not require any royalties, and can be combined with support. Please contact premium@pdflib.com for more information about these license types.
